Georgia Research Alliance

Join us for a 2-day symposium spanning **cutting-edge methods**, multimodal and **computational innovations**, **biomarkers**, and **clinical translation**—bridging neuroscience, engineering, and medicine.

Featuring keynotes, panels, and a poster reception, the event fosters collaboration across disciplines & institutions.

KEYNOTE SPEAKERS

Peter Bandettini

Chief of the Section on Functional Imaging
Director of the fMRI Facility
Director of the Center for Multimodality in Neuroimaging
National Institutes of Mental Health

Susan Bookheimer

Joaquin Fuster Professor of Cognitive Neuroscience, Psychiatry and Biobehavioral Sciences Professor
Staglin Center for Cognitive Neuroscience Professor In-Residence
UCLA Brain Research Institute
